

Facilitator Overview

This notebook provides everything you will need to facilitate the training session. Handouts should be photocopied for each training participant prior to the training. The module should be provided in one half-day session. Following are time frames from providing the module in one session.

Methamphetamine 101

The approximate running time of the videotape is 1 hour and 40 minutes. Additional time for this training session will need to be added as follows:

<u>Activity</u>	<u>Time Needed</u>
Introduction, Presenter Introduction, and Learning Objectives (see pages 2-4)	5 minutes
Administer Pre-Test (see page 5)	5 minutes
After the above two activities are completed, the handouts for the Module One should be distributed and the videotape should be started.	
When prompted, stop tape and take a Break	10 minutes
Start tape and play until it ends.	
Complete Post-Test & Discussion	10 minutes

The resulting total time needed for administration of this module is 2 hours.
